Diogo Piteira Castelos – Lisbon, Portugal

+351 █████████ | █████@diogopcastelos.pt | github.com/DiogoPCastelos| linkedin.com/in/diogopcastelos

EDUCATION

NOVA University Lisbon   **Expected Graduation: Sep 2026**

Degree in Computer Engineering

SKILLS

JAVA (4 years) | **JavaScript** (3 years) | **Assembly** (2 years) | **LUA** (1 year) | **Python** (1 year) | **Bash** (1 year)

Technologies: React.js, **Node.js**, **Docker**, **Git**, **MongoDB**, **Jira**, **PostgreSQL**, **Django**, **Springboot**

EXPERIENCE

In-Nova – Junior Enterprise   **Apr 2024 – Present**

Junior Consultant

- Develop web-applications using the **React.js** framework with **JavaScript** and **Tailwind CSS**
- Engage in workshops to expand my tech stack, such as **Django**, **Springboot Kotlin** and **Figma**
- Used project management tools: **Jira, Git, Microsoft Teams**

GConnection – Startup   **Feb 2024 – Jan 2025**

Integrations Architect

- Design solutions to connect **ATS API's** to the application
- Develop **JavaScript** modules with **Google's API's** to develop a response page
- Connect the application to a private **VPS** and learn **Bash Scripting**
- Impact for the startup: Allowed connection with real companies to join the platform and expand their beta testing
- Main takeaways: **API Authentication**, **API Usage**, **VPS Usage**, **Linux Technologies**

PROJECTS – *All name-hyperlinks go to project's GitHub page*

Portfolio Website   **Jan 2025**

- Built with **React**, **Vite**, and **TailwindCSS** for a modern and efficient development stack
- Implemented **Framer Motion** for smooth animations and a **scroll-based view system**
- Integrated **EmailJS** for seamless contact form functionality
- Designed a **fully responsive UI** with **glass-morphism and refined typography**

ATS-GoogleAPI Handler   **Feb - July 2024**

- Developed a Google Sheets integration handler using **Node.js**, the **Google Sheets API**, and the **Greenhouse API**
- Deployed the application on a **VPS**, ensuring secure and reliable performance

Discord Bots   **Mar 2022 – Jun 2024**

- Developed a series of Discord bots to enhance both mine and my peers' Discord experience
- Developed databases for the bots using **MongoDB**
- Utilized the **Discord API** and **JavaScript** to develop the bots
- Usage was to raffle the winners for a contest live on twitch with over **10,000 viewers**

EXTRA CURRICULAR – Model United Nations; Professional Sailing; Boxing; Football.
VOLUNTEER WORK – Junior Debate Club; Food Bank; Theatrical Productions.
LANGUAGES – **Portuguese**, **English** Native | **Spanish** Fluent | **French** Conversational
